Application of coatings on steel storage tanks or steel pipes and fittings

PROCESS SPECIFICATION

The certificate is applicable for the following scopes:

Scope 6:

Factory application of external paint systems on aboveground PGS 30 or PGS 31 steel tanks.

Application and use

The process covers the application using paint systems in according to:

- BRL K790: Applying paint system on steel tanks or steel pipes and fittings;
- Additional requirements of the customer;
- Regulations of the supplier of the coating or paint.

Marking

An inspection report coating application will be provided, and if the contractor so requests, a marking will be placed on the outside of the storage tank.

RECOMMENDATIONS FOR THE CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Maine Surface Finishing Ltd

and, if necessary,

- Kiwa Nederland B.V.

Consult the supplier's processing guidelines for the proper storage and transport methods.
